- 31 Relegendable Keycaps
- Internal Storage Memory
- Configuration Software included
- Cherry MX Key Modules
- Metal Frame Construction
- Detachable Cable (RJ45)
- Option: PS/2 Cable Connection

## Features and Benefits

The AK-S7002 Keyboard Series is a high quality, high reliable programmable Desktop Style Keyboard.

31 programmable keys with relegendable keycaps can be easily programmed with up to 256 key codes in up to 8 layers.

Mechanical gold cross point contact switches (50 million operations per key) for long life time, even at heaviest use of the numeric keys.

This keyboard was specially designed for data input applications like in an accounting department. The programmable keys, close to the numeric block, allow one hand data input with all special functions like "Tab", comma, brackets, and so on, close by.

Ergonomic design with a height of 35mm at the 3<sup>rd</sup> row.

Specification	
Compatibility	All operating systems supporting standard USB Keyboard
